General conditions of participation

The participant grants the unrestricted right to use and publish the project, the submitted images, videos in whole or in part and the answers from the questionnaire. Publication will take place on the Shop! D-A-CH e.V. [website](#), in press releases, at trade fairs, in Shop! D-A-CH Awards presentations, on YouTube, LinkedIn, Xing and Instagram. The texts and information in the questionnaire are published without verification of accuracy by Shop! D-A-CH e.V. The submitter is responsible for any errors. Contact details can be published in the digital yearbook on request. A participant may only submit materials, products or processes that they have manufactured or developed or for which they act as an agent or distributor.

This award covers all retail marketing activities. This includes sales promotion materials, displays (permanent, semi-permanent, temporary), packaging, POS services, retail design, shopper marketing activities including digital, cross-media and tools for retail or placement in retail.

The participant guarantees the organizer that the products and materials he/she exhibits in the competition do not infringe the rights of a third party or that he/she has obtained the necessary permission from this third party. The participant releases the organizer and its representatives from all liabilities that may arise from presentation of the participant's products and materials at Shop! D-A-CH Awards. The participant indemnifies the organizer and its representatives for all damages they suffer and guarantees them that no action will be taken against the organizer by a third party.

Waiver of the exhibition requirement

Following the great success of the submission videos, we have decided to waive the exhibition requirement for the Awards 2025 as well.

The Awards 2025 will **only accept video submissions** in all categories. The quality and effort of the videos are irrelevant. The submission videos will be shown at the EuroCIS trade fair in Düsseldorf from 18.02. to 20.02.25 at our Shop! D-A-CH Awards 2025 stand.

Of course, all entrants still have the opportunity to exhibit at EuroCIS at our Shop! D-A-CH Award stand. The additional costs incurred for an exhibition are explained below and must be borne by the entrant. An area of 800x1200 mm (Euro pallet) is available per submission for exhibiting. Oversize and power connections will be charged separately.

Exhibiting at the fair is therefore **optional**.

We recommend physically exhibiting the submission at the trade fair, as this can help the jury in its decision-making process. A review at the trade fair can provide clarity on individual criteria that are not always clearly perceptible in the video.

The jury evaluates the submissions based on the videos.

The award presentation area at the trade fair is expressly not to be used as a company presentation area. Disregarding this rule will result in exclusion!

Entries accepted in the competition

The Shop! D-A-CH Awards are open to:

Manufacturers, publishers and developers of point-of-sale communication, design, promotion and advertising agencies, advertisers from any country and any industry. Participation is independent of Shop!/POPAI membership, but Shop!/POPAI members have a relevant price advantage. Applicants wishing to take part in the competition should apply via the website: www.shopassociation-dach.de.

Once the application has been received and confirmed, the participant has a firm and irrevocable obligation to pay the full amount for participation in the Shop! D-A-CH Awards according to the participation fees set out in the conditions of participation. Exception to this are cases where the organizer has rejected the participants application.

- Services and facilities (trade, crafts)

9. Luxury goods and fashion

- Clothing and accessories
- Jewelry
- Luxury goods

In this category, no distinction is made between product groups, but all products that fall under the following definition can be submitted: Luxury products have more than necessary and ordinary characteristics compared to other products in their category, reflected in their relatively high level of price, quality, aesthetics, exclusivity, extravagance and status symbol character.

10. Small editions and concepts (including universities)

A special category for particularly eye-catching individual installations, projects, displays or designs. Concepts from the fields of packaging, display, design or promotional packaging can also be submitted here. Student work or university projects are particularly welcome. Rollout less than 50 units.

11. Visual merchandising, retail design, shopfitting, shop-in-shop concepts, flagship store

- Holistic store concepts
- Brand stores in malls, department stores
- Travel retail
- Pop-up stores
- Store in store systems

Visual merchandising relates to the appearance of the point of sale or store. This overall view includes, for example, the external effect via the façade and shop windows as well as in the entrance area, the conception and topicality of the merchandise display and decoration, faithful implementation of the visual presentation of a company and product to the outside world.

Retail design concerns the entire, holistic shopping experience. The following aspects are included in the assessment of the submissions: spatial planning, interior design, branding, presentation of goods. The prerequisite is the finished implementation.

Evaluation criteria here are appealing store concepts; communication of the product range, effective addressing of the target group(s), successful mix of architecture, colors, materials, lighting for staging, customer flow; clear communication of the idea and story to the shopper.

12. Retail technologies*

Technologies in all their diversity with high effectiveness at the point of purchase for a convincing and effective shopper experience. Creative digital solutions that inspire people, activate shoppers or improve processes and logistics find a home here.

- **Best Ambient Commerce:** In ambient commerce, retailers surround consumers with technologies to offer them an immersive and sensory shopping experience.
- **Best Cross Channel:** Technologies, along the shopper journey, that harness the power of merging relevant channels across channels to provide a holistic shopping experience from initial search to purchase.
- **Best XR:** Integration of VR, AR and MR technologies to enhance the shopper journey.
- **Best Operational Excellence:** Operational excellence means finding better and new ways to develop products, fulfill orders, provide customer service or any other activity such as payment, check-out or logistics function that an organization performs. This is about digital solutions that increase operational excellence.
- **Best shopper activation:** Shopper activation involves shoppers in marketing campaigns by extending the brand experience and the shopper experience beyond the point of purchase. In addition to the playful staging of the brand or products, for example, a further aim of shopper activation is to gain direct insights into the behavior, opinions and actions of shoppers based on their reactions to the designed experience.

13. Smart Shopper Journey

We are looking for best cases in shopper touchpoint management as well as integrated and hybrid shopper campaign management across various touchpoints along the entire shopper journey. We are looking for pre-store, in-store, post-store campaigns or shopper marketing campaigns with classic sales promotion measures, promotions or direct marketing activities that successfully and efficiently link the various touchpoints. The focus here is on holistic, cohesive, shopper-centered communication.

Please explain in the submission video how and which different touchpoints were addressed.

14. innovation

POS solutions and displays that represent an innovative use of design, materials, usability/user-friendliness or innovative technology.

15. Data Driven Retail*

It's not for nothing that data has been called the new "oil" - it can be the most valuable resource in the hands of shopper marketers. However, the way in which it is collected and used is still very different. We are looking for best cases from the following areas:

- **Best of CRM Data:** By collecting and using data along the shopper journey and customer data, shoppers can be addressed individually.
- **Best of Analytics Data:** The bundling and effective analysis of data creates new insights into the shopper experience and thus ensures a decisive advantage in the market.
- **Best of Loyalty Program Data:** Data is increasingly the solution for developing customer loyalty programs that create brand love and loyalty at a time when customers are more open than ever to switch brands.
- **Best of In-Store Data:** The use of data from e.g. sensors, cameras, POS systems, etc. at the POS to optimize and strategically develop the shopper experience.
- **Best of Supply Chain Data:** Today's customers want to move seamlessly between the physical and digital worlds and have a lot of choice at every step. As they move through these two worlds, large amounts of data are generated during the procurement, processing and distribution of goods. The aim of retailers is to gain insights from this and create added value for the shopper. From supply chain analysis to supply chain management

*In categories 12 and 15, all entries are submitted in the superordinate category. The jury will determine the sub-category.

If you have any questions, please contact us!

Please note:

These are general criteria. The application of these and the weighting of the individual factors will be determined by the jury according to the specific requirements of the individual category.

Submission procedure/payment deadlines

The participant fills out the submission documents online on the website. One submission document must be completed for each submission.

Payment of the participation fee becomes binding upon registration. If the participation fee is not paid by the payment deadline, Shop! D-A-CH e.V. reserves the right to exclude the registration from the competition.

Approved materials/acceptance conditions/explanations on the type of submission

The submitted materials must fulfill the following conditions:

- The material must be for the purpose of communicating/marketing to the shopper or serve this purpose in a broader sense.
- Each project can only be submitted by one company. However, the same project may be submitted in several categories. Each submission is subject to a fee.
- Each company may submit as many projects as it wishes.
- Only completed entry forms will be accepted.
- Please **do not use any references to the submitting company** within the video/photos for the jury to exclude any possibility of influencing the jury.

The following types of material are excluded from the competition in categories 1 - 9:

- Prototypes,
- test materials
- Pre-series materials

However, these are expressly permitted in categories 10 and 14.

Criteria for the submission video

This year, all categories must be submitted by video.

The following criteria for the video must be considered when submitting:

- Please produce only **one submission video** in **mp4 format** (preferably no larger than 100 MB).
- Submit the video in **duplicate**.
One of the two videos should be preceded by an introduction of the submitting company of max. 15 seconds and the other should focus exclusively on the submission (Jury-video).
- The submitting company must not be recognizable in the submission video (Jury-video) itself.
- The duration of the video should not exceed 120 seconds. For submissions requiring explanation, the duration may be up to 180 seconds.
- The submission videos must be made available to us via WeTransfer.

Please note:

Even though submissions are only permitted via video this year, **3 high-quality photos** should also be provided. Ideally from different perspectives that emphasize the uniqueness of the submission. At least one of them must be cropped.

This is necessary so that we can appropriately depict the submissions in our nominee presentation as well as the winners in our presentation for the award ceremony. The photos will also be used for your presence on our social media channels.

We would like to take this opportunity to reiterate our recommendation for a physical exhibition at the fair.

Content of the submission

Your submission video should present the uniqueness and value for money. Under no circumstances should it be an advertising message for potential customers.

We require two versions of the same video.

Version 1 of the submission video:

This is for the jury and must not contain any reference to the submitter in words or images.

Version 2 of the submission video:

This is the winner's video that will be published on our channels. It should be preceded by a maximum 15-second introduction about the submitting company in sound and vision.

The following areas should be covered in the film:

- Basic task
- What should be achieved in the brief?
E.g. market launch, secondary placement etc.
- How did you arrive at the solution?
Presentation of methodology and result.
Presentation of the submission
- What makes this submission worthy of an award? Show details that convince the jury of your project.
This should be the main part of the film.
- Reactions to your project. Has it been reported in the press, by the customer or in social media?
Please make sure that no reference to the submitter appears here.

It does not have to be an artistically sophisticated film. We are also happy to receive films shot with a smartphone. The main thing is that the jury is convinced by the enthusiasm and uniqueness of your development.

Entries that do not meet the above criteria will be disqualified immediately and without the right to a refund of fees.

Control (approval)

The organizer may exclude products and/or materials that do not appear to be in line with the subject matter of the competition or do not meet the required criteria.

The organizer is not obliged to justify its decisions. If an application for participation is refused, the participation fee paid will be refunded by the organizer MaR D-A-CH GmbH/Shop! D-A-CH e.V. will refund the participation fee paid.

The participation of the submitter will be confirmed by the organizer. This confirmation of acceptance may also be in the form of an invoice addressed to the submitter.

Withdrawal

If a submission is withdrawn, the participation fee will be retained by the organizer.

Terms of payment

Payment of the participation fees and all ancillary costs incurred shall be made in accordance with the conditions set by the organizer, which can be viewed by the applicant on the website www.shopassociation-dach.de and in the conditions of participation.

Following submission, you will receive an invoice in accordance with the online submission. The submission fee must be paid by bank transfer within 7 days. Invoices will be issued by MaR D-A-CH GmbH, a subsidiary of Shop! D-A-CH e.V.

Default in payment / inability to pay

The due date or method of payment from the above conditions must be complied with. If they are not complied with, the organizer is authorized to assert the above-mentioned condition "Withdrawal".

Entries for which payment is not received by the due date may be disqualified immediately and without the right to a refund of fees.

Winning an award

Winning a gold, silver or bronze trophy in each category depends on the evaluation or judgment of the jury, regardless of how many entries there are in the categories. The jury reserves the right to divide or expand the categories if necessary and required. Entries may be moved to a more appropriate category without consultation. The jury's decisions are final. The participant declares that he/she has been informed of the jury's method of evaluation and accepts it without reservation. In particular, he/she waives his/her right of recourse against the jury or the organizer.

Depending on the current situation, the award ceremony may take place as part of a gala (for a fee) or virtually. Upon winning an award, the entrant receives a statue. Additional statues can be purchased for a fee.

Application of the regulations- disputes

By entering the competition, each clause of these rules is accepted. Any violation of the provisions of these rules or internal regulations issued by the organizer may lead to the exclusion of the participant concerned, even without prior notice.

Only the law of the Federal Republic of Germany shall apply, excluding the UN Convention on Contracts for the International Sale of Goods.

The place of jurisdiction is Düsseldorf in Germany.
